Rhythm Musical Clock Quick Set Up Guide

Rhythm Musical Clock Quick Set Up Guide - Your demonstration makes a big difference -

Some clocks come with a foam piece in the back to stabilize the pendulum during shipping. Please remove it to free the pendulum.

Make sure to insert all batteries properly into the battery holder, usually located on the back or bottom of the clock.

Make sure the clock functions properly by pressing the MONITOR button, which is usually located on the side, the front, or the bottom of the clock, to make sure the clock plays the melodies and performs the Magic Motion.

If the clock does not do so, check if all batteries are correctly installed, facing the same direction.

Always make sure that the ON/OFF switch is on the ON position and the Volume Control is set at the proper level (usually maximum).

Display all musical wall clocks together to better capture the customers' attention. Set the clocks' times at 5 or 10 minutes apart so that the each clock plays the melodies at these intervals.

If it is a wall clock, always remember to hang it parallel to the wall to prevent the swinging / rotating pendulum from stopping.

Hang the laminated Model Tags along side each clock. These tags describe the tunes for each model.

Also, hang the "Ask for Demonstration" sign. These are great sales tools.

7 DEMONSTRATE THE CLOCKS TO YOUR CUSTOMERS!
Demonstration is always the key of success to sell Rhythm Musical Motion Clocks.
With proper demonstration and explanation, your customers will be able to tell how our clocks work every hour on the hour.
Remember that your demonstration makes a big difference.
